

# Storm Drain Catch Basin Clean Outs Services

**Storm Drain Catch Basin Clean-Outs:** Regular maintenance of storm drains and catch basins to ensure proper drainage, prevent backups, flooding, and pavement degradation.

## Services:

- **Storm Drain Catch Basin Clean-Outs and Jetting of Lines Between Basins:** High-powered vacuum/ Jetter trucks clean the sides and bottoms of catch basins, removing debris like leaves, trash, and sediment. Jetting clears clogs in connecting lines to restore normal water flow. This service prevents backups, flooding, and pavement degradation.
  - **Debris and Sediment Removal:** Extracting leaves, trash, and natural sediment that block water flow.
  - **Root Cutting:** Mechanical or hydro jetting methods to cut roots intruding into drainage lines.
  - **Filter Installation and Maintenance:** Installing and maintaining filters to prevent debris from entering the stormwater system.
  - **Stormceptor Cleaning:** Cleaning stormwater treatment systems to remove pollutants and comply with environmental regulations.
  - **Retention Pond Dredging and Sludge Removal:** Dredging retention ponds to remove accumulated sludge, sediments, and other debris.
- **Line Inspection with CCTV Photo and Video Report:** Comprehensive CCTV service using advanced camera equipment to inspect pipe interiors for damage, leaks, or obstructions, with a video and photo report provided.
- **Transport and Disposal of Regulated Industrial Process Waste:** Legal transport and disposal of debris from catch basin cleaning and line jetting, with proper paperwork to a permitted facility.
- **Stormwater Sampling and Analysis:** Sampling and analysis of stormwater to determine purity and identify potential contamination.
- **Oil/Water Separator Service:** Maintenance and cleaning of separators to ensure they function efficiently.

## Additional Services:

- **Emergency Response Services:** Immediate response to environmental emergencies.
- **Industrial Tank Cleaning:** Cleaning and maintenance of storage tanks.
- **Regulated Waste Disposal:** Compliant disposal of hazardous and non-hazardous waste.
- **Industrial Process Waste:** Proper handling and disposal from reclamation waste (Example: Car wash grit)

## Who/Where May Need These Services:

**Commercial Properties:** Parking lots, industrial sites, warehouses. (Prevent flooding and maintain infrastructure)

**Municipalities:** City streets, public areas. (Ensure proper drainage and prevent public hazards)

**Construction Sites:** Clearing debris during construction. (Maintain site safety and efficiency)

**Property Management Companies:** Maintaining stormwater infrastructure. (Prevent property damage and ensure tenant safety)

**Car Wash's:** Water Reclamation system pits and oil water separators.
